

# Less time waiting, more time learning with the Dell™ Chromebook™ 11 powered by Intel®\*

\*The Dell Chromebook 11 with an Intel Celeron® 2955U processor versus the Acer® Chromebook 13 with an NVIDIA® Tegra® K1 processor

## Less waiting, more time learning in history class

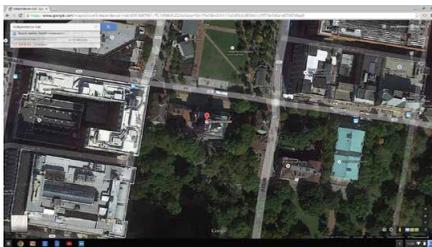

## Less waiting, more time learning in science class

## Engage students with smoother zooming and 3D maps

We experienced smoother zooming in Google Maps on the Dell Chromebook powered by Intel. Plus, it supported Google's 3D map view. The NVIDIA processor-based Chromebook took longer to render map images when zooming, and didn't support 3D view.

Google Maps in basic satellite view
