

BOOST DATACENTER EFFICIENCY

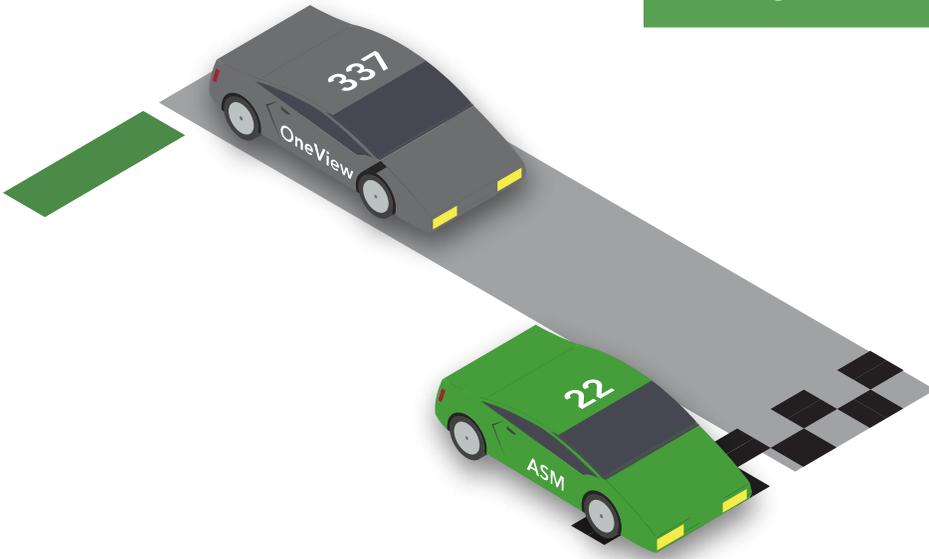

with Dell™ Active System Manager

Your administrators' time is valuable and routine tasks should not be the majority of their workflow.

Dell ASM can simplify management and automation, which gives admins more time to spend on high priority projects.

Time

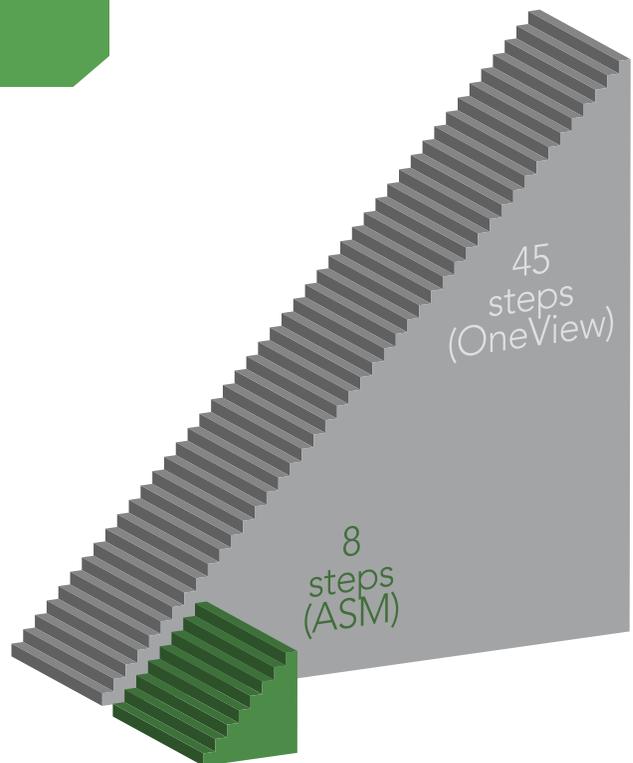

93%
FASTER

Dell ASM deployed a VMware® vSphere® cluster faster than HP OneView. That means increased productivity for your IT staff.

Steps

82%
FEWER
STEPS

An administrator saved 37 steps by using Dell ASM to deploy a service. Reducing administrator steps cuts down on human error.
