

Meet growing online transaction demands and make smarter business decisions

Dell EMC Microsoft Storage Spaces Direct Ready Nodes make it easier to stay ahead of consumer demand through quick order processing and address business outcomes through in-depth data analysis.

Consolidate your datacenter

with a cluster that can handle **8 VMs doing heavy OLAP analytics** or **12 VMs processing robust OLTP requests**

Transform raw data into insights

48,391 IOPS
and
4,857 MB/s throughput

Preconfigured Dell EMC™ Microsoft® Storage Spaces Direct Nodes based on Dell EMC PowerEdge™ R740xd servers **eliminate the hassle** of designing, configuring, and testing hardware yourself.

Process multiple workloads

48 separate 300GB database query sets in **46 minutes**

Keep orders moving

14,049 online transactions per second
